# A Hot Weather Warning

In feeding babies and children it is impossible to overestimate the importance of pure milk. This is particularly so during protracted hot weather such as we are now hav-

The milk we supply is from certified cows, fed on rich alfalfa, and every dairy is kept in perfect sanitary condition. Every precaution is exercised to prevent contamination between the milking and delivery. Every botle is automatically sealed. Every ounce of milk is electrically

THE MILK WE DELIV. ER IS ABSOLUTELY PURE AND RICH 'IN FOOD VALUE.

ago. Pineapples shipped to Germany

Following is the letter referred to: Treasury Department. Office of the Secretary,

lulu, Hawail. Sir: In reply to your letter of the 6th ultimo, I have to advise you that T. D. 12392 of February 8, 1892, provided for the allowance of drawback on canned fruits in sirup, prepared by the San Jose Fruit Packing Co. of San Jose, Cal. This decision was extended in T. D. 15452 to cover fruits canned by other firms. Thus a general rate was established which was applicable to any canner. When T. D. 17355 was published, these two decisions were omitted from the schedule of drawbacks contained in that decision. Subsequently, following an opinion of the attorney general dated July 15, 1898, the department in T. D. 19721 of July 22, 1898, restored T. D.

12392 and T. D. 15452. There is therefore at the present time a general rate for the allowance of drawback on fruits canned

A separate rate of drawback was provided in T. D. 29785 on canned pineapple manufactured by the Hawaiian Pineapple Co. by reason of special circumstances which

arose at that time. In the present case you should verify the certificate of manufacture as to the quantity of refined sugar used, and if this refined sugar was manufactured from imported raw sugar, the quantity of raw sugar should be estimated in accordance with T. D. 20174 of October 12, 1908. Respectfully,

(Signed) F. M. HALSTEAD. Chief, Division of Customs. +0+
